It should be noted that the figures reported below should not be viewed as additional benefits, as that would constitute double-counting.

Recommendations

UPDATE RESPONSIBILITY AND ACCOUNTABILITY:

The first recommendation is that project and programme managers should take greater responsibility for registering and updating their projects and programmes on the RBN OPMO System. Compliance to the OPMO updating policy should be assessed as part of their performance agreements and the OPMO will provide a report of system use and compliance to heads of institutions and departments prior to every performance assessment period.

OPMO SYSTEM:

Uploading of project and programme related documents still remains a concern. It is the responsibility of the project and programme managers to ensure that all project and programme related documents are uploaded in the document library.
